None.

DISCUSSION

D1. Making Water Conservation a Way of Life (Presenter Kim Domingo)

GM Domingo deferred the discussion to Committee Chair Gregory Washington.

Chair Washington informed the committee that from a 2027 regulatory perspective, the District must make efforts to adopt and follow a water conservation strategy and inform our customers that conservation measures by the state are coming.

Promoting low flush toilets -. he reported he did a small social media survey and found most households are receptive to them and most already have them in place.

Doing customer outreach by promoting our Metron meters and inform customers they can have almost real time usage data is empowering and is a valuable tool to let them know what their water usage is.

Finding out what other districts are doing can be helpful. Palmdale Water District did a water conservation outreach to school aged kids. We all can be water conservation advocates by sharing conservation methods at local meetings board members attend like RMAC and Rosamond Chamber of Commerce.

Chair Washington suggested to increase our conservation budget to \$10k. District staff can continue to get the word out through our newsletter and email blasts. Committee members were tasked to come up with advocacy actions they can share with the committee next month.

D2. Water Conservation Efforts (Presenter Kim Domingo)
